

Lost@Cruz - Release Plan

Team Lost

Lost 1.0 and Dec 03, 2024

0.0.x and (Bi-monthly)?

- **High-level goals**

- Build a platform where users can create and upload posts about lost and found items (**Sprint 1**)
 - Clicking on a post expands the details of the lost/found item
 - Include images and descriptions of the lost/found item
 - Automatically block contact info
 - Attach a contact button that leads users to a page where they can fill out a form and contact the poster
 - Selecting a place on a UCSC map where the item was last seen
- Sharing integration where users can share posts/links directly to social media platforms (**Sprint 2**)
- Log-in system to edit/delete posts (**Sprint 2**)
 - Side bar to show posts
- Post Digest (Compilation of recent posts) (**Sprint 2**)
 - Summation of posts done over 24 hours
- Ability to search for posts regarding specific items (**Sprint 3**)
 - Category Breakdown
 - Post Tags
 - Watch for posts that meet certain categories
 - Disclaimer of risks/ authentication procedures
- Comment Box (**Sprint 4**)
 - The ability for other users to comment on the post
 - These comments are sent to the Digest
 - Then only the creators of the post, can “contact” others

- **User stories**

- Sprint 1
 - (Priority 1) As a person who has lost an item, I would like to create a posting to inform others of my item. [Points: 13]
 - (Priority 1) As a person who has found an item, I would like to create a posting to return the lost item to its owner. [Points: 13]
 - (Priority 3) As a person with a post, I want to be able to be contacted by others to get the item to its owner [Points: 2]
- Sprint 2
 - (Priority 1) As a person who has posted, I want access to managing posts to edit and delete posts I have made. (Log-in) [Points: 5]
 - (Priority 2) As a person with a post, I want to be able to spread it to more platforms to spread awareness about the lost item [Points: 2]

- (Priority 3) As a user, I want to receive posts posted on the site without checking the website daily. [Points: 4]
 - Sprint 3
 - (Priority 1) As a user, I want to sort posts by searching/categories to focus on what item I'm dealing with [Points: 4]
 - (Priority 2) As a person making a post, I want some advice for authentication/meeting so the item goes to the right owner and I'm safe. [Points: 4]
 - Sprint 4
 - (Priority 1) As a user, I want to be able to leave or receive comments so I am not dealing with just emails. [Points: 7]
 - (Priority 2) As a user, I would like to personalize the website experience like changing my name and my profile picture. [Points: 7]
 - (Priority 3) As a user, I want to be notified when people post about items that I'm looking for. [Points: 3]
- **Product Backlog**
 - Profile page with a score of lost/found items
 - The Lost Score™
 - Notify users of existing posts, and if they would like them refreshed or resolved
 - 1-on-1 Dming
 - Maybe in the acknowledgments page, we can advise the students to hand-off items in the mailroom.
