

Lost@Cruz - Sprint 4 Plan

Team Lost@Cruz

Nov 19 - Dec 3, 2024

- **Tasks**
 - (Priority 1) As a user, I want to be able to leave or receive comments so I am not dealing with just emails. [Points: 7]
 - Comment Box
 - The ability for other users to comment on the post
 - These comments are sent to the Digest
 - Then only the creators of the post, can “contact” others
 - (Priority 2) As a user, I would like to personalize the website experience like changing my name and my profile picture. [Points: 7]
 - Change profile picture
 - Edit BIO
 - Change user name
 - (Priority 3) As a user, I want to be notified when people post about items that I’m looking for. [Points: 3]
 - A user should be able to identify tags and receive posts relevant to the tags in addition to their regular post digests
- **Team roles:**
 - Kelly - Frontend
 - Jiayi - Frontend
 - Keshav - Frontend
 - Thomas - Scrum Master
 - Hamza - Product Owner, backend
- **Initial task assignment:**
 - Keshav: Implement customized post digests and enable emails to be sent over production
 - Kelly: Implement profile edit system
 - Jiayi: Implement comment system
 - Thomas: Implement interface for profile edit system and comment system
 - Hamza: Allow only UCSC emails to sign up through google and reset password
- **Initial burnup chart:**

Burn-up Chart

- Initial scrum board:

User Story	Task w/ Name	In Progress	Done
(Priority 2) As a user, I would like to personalize the website experience like changing my name and my profile picture.	Kelly/ Keshav [Task 1]: Create a system to let users edit their profile name, picture, and profile BIO. Story Points: 4		<input checked="" type="checkbox"/>
	Thomas [Task 2]: Connect the frontend profile system to the database Story Points: 3	- Most of the profile api is done but some of them are not tested	<input checked="" type="checkbox"/>
(Priority 1) As a user, I want to be able to leave or receive comments so I am not dealing with just emails.	Jiayi [Task 1]: Create a Comment Box for each post. And let the user see the comment for that post. Story Points: 4	- Making comment system for post	<input checked="" type="checkbox"/>
	Thomas [Task 2]: Connect the frontend comment edit system to the database Story Points: 3	- Most of the comment api is done. - Majority of the API is tested	<input checked="" type="checkbox"/>
(Priority 3) As a user, I want to be notified when people post about items that I'm looking for.	Keshav [Task 1]: A user should be able to identify tags and receive posts relevant to the tags in addition to their regular post digests Story Points: 3	- Imported filter function into profile	<input checked="" type="checkbox"/>
CARRYOVER			<input type="checkbox"/>
As a person with a lost item, I want to be able to see a list of uploaded lost items	Hamza [Task 1]: Implement a password reset. Story Points: 1		<input checked="" type="checkbox"/>

	Hamza [Task 2]: Implement google login Story Points: 1		<input type="checkbox"/>
(Priority 3) As a user, I want to receive posts posted on the site without checking the website daily.	Keshav Fix emails not being sent in the production deployment Story Points: 2		<input checked="" type="checkbox"/>
(Priority 1) As a user, I want to sort posts by searching/categories to focus on what item I'm dealing with [Points: 6]	Kelly [Task 2]: Implement a search bar Fixing bugs in search bar Story Points: 4	- Finding the bug in search bar	<input type="checkbox"/>

- **Scrum times:** Every Tuesday at 5 pm, Thursday at 4 pm, and Sunday at 12 pm
