Sprint Report 4 - CSE 115A – Lost@Cruz

The sprint report must contain the following elements:

• **Heading:** Sprint 4 Report, Lost@Cruz, Team Found, December 3, 2024

• **Actions to stop doing:** Our team is satisfied with the actions that we are currently doing, including meeting at least twice a week and constantly communicating on Discord as well. We also follow merge request procedures to properly merge our work. Along with that, the team is active on Discord to answer questions.

• **Actions to start doing:** Be more responsive when there's any issue.

• **Actions to keep doing:** Our team should continue communicating with each other on Discord and meet at least twice a week to update each other on their work progress. Along with that, we should also keep our Sprint plan updated so story points can be updated properly. Should continue to add comments to the code, and to inform others of what's being worked upon. Further, keep the repository clean with proper branch management.

• **Work completed/not completed:**
Completed User Stories:
- (Priority 1) As a user, I want to be able to leave or receive comments so I am not dealing with just emails. [Points: 7]
    - Comment Box
        - The ability for other users to comment on the post
        - These comments are sent to the Digest
        - Then only the creators of the post, can "contact" others
- (Priority 2) As a user, I would like to personalize the website experience like changing my name and my profile picture. [Points: 7]
    - Change profile picture
    - Edit BIO
    - Change user name
- (Priority 3) As a user, I want to be notified when people post about items that I'm looking for. [Points: 3]
    - A user should be able to identify tags and receive posts relevant to the tags in addition to their regular post digests

• **Work completion rate:**
- User Stories: 3
- Estimated idea work hours completed during the prior sprint: 20 hours
- Total number of days during the prior sprint: 14 days
